Have a great summer break!

Dear Parents,

Here are some ideas to help children use their time constructively during the long summer break. Some activities require adult supervision - learning together can be loads of fun for you both, parent and child.

Most of the children are able to understand instructions given in English but it is also important that your child learns to converse in English. He / She should speak to the teacher and friends in English. Here are some teaching tips for you...

- You must converse in English with your child
- Story Time
- Show and Tell activity

Show and Tell at Home

Show and Tell

Do this activity with your child using common household objects/toys
e.g. spoon, jug, doll, favourite dress, cycle, wristwatch, hat/cap, toy car etc

Make simple sentences to describe the object
For a ball, you can say

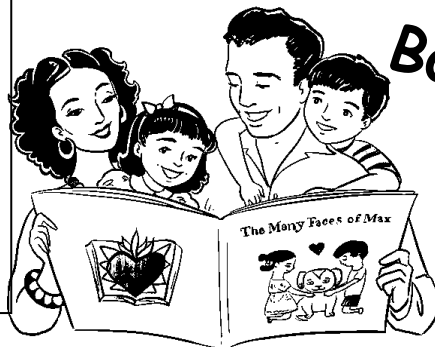

This is a ball.
It is a round ball.
It is a big/small ball.
It isin colour.
I play with my ball.

Story Time

Read 2 short stories to your child from the Panchtantra/Aesop's Fables every week

Talk about the moral at the end of the story
(What is right/wrong)

Do an activity related to the story
